IDANO MANAGEMENT 3900 R. IDANO STATE P.O. BOX 831 Protested APPROVAL OF STATE ENGINEER This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following Himsinatons and conditions: This permit is issued subject to all existing rights on the source. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the period of use and the average number of livestock served from the waters of this source. It is further understood that this right must allow for a reasonable lower of the static water level at permittee's well due to any other ground water developm in the area. The well shall be equipped with a 2-inch opening for measuring depth to water. If well is flowing, a valve must be installed and maintained to prevent waste. The State retains the right to regulate the use of the water herein granted at any and all times but does not take responsibility for the use of the Federal range. This Permit does not extend the permittee the right of ingress and egress on public, private or comporate lamis. The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies. This permit is issued under the provisions of NRS 534,120(2) as a preferred use. The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed. 0.0079. cubic feet per second, Or sufficient to vater. Proof of completion of work shall be filed on or before. December 30, 1989 Map in support of proof of beneficial use shall be filed on or before. December 30, 1989	_		10
